

1|7 July
Lisboa

STRATI 2013

1st INTERNATIONAL CONGRESS ON STRATIGRAPHY

The 1st International Congress on Stratigraphy-STRATI 2013, to be held in Lisbon from 1–7 July 2013, is under way! Please take a look at all the most recent news and keep linked to the congress website for all information updates:

www.strati2013.org

**Abstract submission deadline has been extended to
10th March**

Abstracts are to be submitted in an extended format (maximum four A4 pages) in English language. Detailed instructions for authors and online abstract submission can be found at the STRATI 2013 website.

Important dates and upcoming deadlines

- 10th March 2013 – deadline for submission of abstracts
- 31st March 2013 - registration and field trip bookings (standard rates)
- 31st March 2013 - deadline for formal notification of acceptance of abstracts
- 1st April to Congress - registration and field trip bookings (late paid rates)
- 1-2 July 2013 - pre-Congress field trips
- 3-5 July - Congress sessions
- 6-7 July 2013 - post-Congress field trips

Venue – Gulbenkian Conference and Exhibition Centre will host STRATI 2013

The 1st International Congress on Stratigraphy - STRATI 2013 will take place at the Gulbenkian Conference and Exhibition Centre, located only 8 km from the Lisbon international airport and 4 km from the Lisbon downtown historical centre, with nearby accommodation and excellent transportation connections to all sites of importance and features of interest.

Gulbenkian Centre: 38° 44' 15.14"N / 9° 9' 16.03"W

Field Trips

The following five pre-meeting and five post-meeting field trips are proposed for the 1st International Congress on Stratigraphy - STRATI 2013:

Pre-Meeting Trips (estimated prices for a minimum of 20 participants)

~~•SFT-01 - Origin and evolution of Late Neoproterozoic-early Paleozoic sedimentary basins associated with supercontinent cycles: a perspective from the northern Gondwana margin (SW Iberia) - in the footsteps of Francisco Gonçalves - 3 days, 30th June - 2nd July, €300 - Cancelled~~

~~•SFT-02 - Paleozoic sequence (Neoproterozoic to Carboniferous) of the Valongo-Arouca region (Northern Portugal) - 2 days, 1-2 July, €300 - Cancelled~~

~~•SFT-03 - From the Variscan end to the Atlantic beginning in SW Portugal - from the structure to the lithostratigraphy - 2 days, 1-2 July, €230 - Cancelled~~

•SFT-04 - Stratigraphy, sedimentary patterns and reservoir features of Jurassic carbonate successions from the Lusitanian Basin - 2 days, 1-2 July, €275

~~•SFT-05 - The Lower Tagus Basin. A North Atlantic Cenozoic Basin - 2 days, 1-2 July, €160 - Cancelled~~

Post-Meeting Trips (estimated prices for a minimum of 20 participants)

•SFT-06 - The Lower Jurassic at Peniche (Lusitanian Basin). Recent advances in stratigraphy and sedimentary geology - 1 day, 6th July, €80

•SFT-07 - The tectono-stratigraphic evolution of an Atlantic type basin: example from the Arrábida sector of the Lusitanian Basin - 1 day, 6th July, €75

•SFT-08 - Upper Jurassic to Lowermost Cretaceous of the Lusitanian Basin - landscapes where dinosaurs walked - 1 day, 6th July, €75

•SFT-09 - Stratigraphy and sequential correlations in the Lower Cretaceous around Lisbon - 2 days, 6-7 July, €135

~~•SFT-10 - The Atlantic - Mediterranean transition domain. The Cenozoic of the Algarve platform and the Guadalquivir Basin - 3 days, 6-8 July, €600 - Cancelled~~

Details concerning these trips, including a short summary and a description of the itinerary and timetable, can be found at the STRATI 2013 website.

Registration and accommodation

Registration at standard rates is possible until 31st March. Please register online at the STRATI 2013 website.

Discounted accommodation rates have been negotiated for STRATI 2013 participants at an extensive range of hotels and other types of accommodation in Lisbon. You can book your accommodation when you register for the Congress.

Participants are urged to book accommodation as soon as possible as demand for accommodation in Lisbon during the period the Congress will take place is always high.

For more information please contact

Abreu Travel Agency - Madalena Almeida: malmeida.lisboa@abreu.pt

Social Programme

Please check for details on social, cultural, and historical attractions in Lisbon at the official travel agency of the congress (www.abreu.pt) or Lisbon's Tourism Office (www.visitlisboa.com).

Contact Us

The 1st International Congress on Stratigraphy – STRATI 2013 is available to assist you with all Congress enquiries at the following email addresses and contacts:

General enquiries strati@strati2013.org
Registration enquiries register@strati2013.org

Telephone: +(351) (212 948 573)
Fax: +(351) (212 948 556)

Postal address:
1st International Congress on Stratigraphy – STRATI 2013
Dep. Ciências da Terra, FCT/UNL
Campus de Caparica
2829-516 Caparica
PORTUGAL

GENERAL PROGRAM

The Scientific Program for STRATI 2013 is outlined below (please note, it is subject to change)

Wednesday, 3rd JULY

9:00 - 10:00	10:00 - 11:00	11:00 - 12:00	12:00 - 12:30	12:30 - 14:00
Registration	Opening Ceremony	1 st Plenary Session Stanley Finney	Welcome drink	Lunch break

14:00 - 15:30	15:30 - 16:00	16:00 - 16:30	16:30 - 18:00	17:45 - 18:30
Oral presentations Themes: 2a, 9, 10, 11, 14	1 st Poster session: Themes: 2a, 5, 10, 11, 14	Coffee break	Oral presentations Themes: 2a, 9, 10, 11, 14	Meeting ISPS

Thursday, 4th JULY

9:00 - 11:00	11:00 - 11:30	11:30 - 12:30	12:30 - 14:00
Oral presentations Themes: 9, 13, 16	Coffee break	2 nd Plenary Session Bruno Vrielynck	Lunch break
Meeting Comité Français de Stratigraphie			

14:00 - 15:30	15:30 - 16:00	16:00 - 16:30	16:30 - 17:30	17:45
Oral presentations Themes: 2, 3, 9, 16, 22	2 nd Poster session Themes: 2, 3, 6, 9, 13, 16, 22	Coffee break	Oral presentations Themes: 1, 3, 6, 8, 22	ICS General Assembly

Friday, 5th JULY

9:00 - 11:00	11:00 - 11:30	11:30 - 12:30	12:30 - 14:00
Oral presentations Themes: 8a, 15, 17, 19, 20, 21	Coffee break	3 rd Plenary Session Vitor Abreu	Lunch break

14:00 - 15:30	15:30 - 16:00	16:00 - 16:30	16:30 - 17:45	17:45
Oral presentations Themes: 4, 8a, 18, 19, 21	3 rd Poster session Themes: 4, 7, 8a, 15, 17, 19, 20, 21	Coffee break	Oral presentations Themes: 4, 7, 18, 19	Closing Ceremony
			Meeting ISQS	

FULL SCIENTIFIC PROGRAM

WEDNESDAY 3 JULY 09:00 - 18:30	
09:00 - 10:00	Registration
10:00 - 11:00	OPENING CEREMONY (Room A2)
11:00 - 12:00	1 st Plenary Session - Stanley Finney "The Reality of GSSPs" (Room A2)
12:00 - 12:30	Welcome drink
12:30 - 14:00	Lunch break
14:00 - 15:30	Oral presentations (Rooms A2, A3, 1, 2, 3)
15:30 - 16:00	1 st Poster Session (Poster Hall)
16:00 - 16:30	Coffee break
16:30 - 18:15	Oral presentations (Rooms A2, A3, 1, 2, 3)
17:45 - 18:30	Meeting International Subcommission on Paleogene Stratigraphy (ISPS) (Room A2)

ROOM A2 - WEDNESDAY 3 JULY	
10:00	OPENING CEREMONY
11:00	1 st Plenary Session - Stanley Finney "The Reality of GSSPs"
12:00 - 12:30	Welcome drink
12:30 - 14:00	Lunch break
Theme 2a - Paleogene events, Evolution and Stratigraphy	
14:00	A new low to middle latitude biozonation and revised biochronology of Paleogene calcareous nannofossils Isabella Raffi, Claudia Agnini, Jan Backman, Eliana Fornaciari, Domenico Rio, Heiko Pälike
14:15	Oligocene planktonic foraminiferal biostratigraphy: current state-of-the-art and new calibrations Bridget Wade, William Berggren, Paul Pearson, Jamie Lakin
14:30	Lower Eocene to Lower Miocene stratigraphy and paleoenvironment of ODP Site 643A, Norwegian Sea Kasia K. Sliwinska, Stefan Schouten, Karen Dybær
14:45	The Bottaccione section at Gubbio, central Italy: a classical Paleocene Tethyan setting revisited Simone Galeotti, Matteo Moretti, Carlotta Cappelli, James Phillips, Luca Lanci, Kate Littler, Simonetta Monechi, Maria Rose Petrizzo, Isabella Premoli Silva, James C. Zachos
15:00	Linked proposals to core Cenozoic marine stratigraphic reference sections onshore and offshore Tanzania (ICDP/IODP) Paul N. Pearson, Bridget S. Wade, Hudson Wellington, Christopher J. Nicholas, Dick Kroon
15:15	Paleocene-Eocene transition as reflected by mammalian evolution in central Asia Jin Meng, Yuanqing Wang
15:30	1 st Poster Session - Poster Hall (Themes: 2a, 5, 10, 11, 14)
16:00 - 16:30	Coffee Break

16:30	Integrated stratigraphy of the Monte Cagnero pelagic sequence in the Umbria-Marche basin (northeastern Apennines, Italy): A potential candidate for defining the Global Stratotype Section and Point (GSSP) for the Rupelian/Chattian boundary Rodolfo Coccioni, Alessandro Montanari, Adriana Bellanca, David M. Bice, Henk Brinkhuis, Nathan Church, Alain Deino, Fabrizio Frontalini, Fabrizio Lirer, Alison Macalady, Patrizia Maiorano, Aaron McDaniel, Andrea Marsili, Simonetta Monechi, Rodolfo Neri, Claudio Nini, Marisa Nocchi, Jörg Pross, Pierre Rochette, Leonardo Sagnotti, Marianna Sideri, Mario Sprovieri, Fabio Tateo, Yannick Touchard, Stefaan Van Simaey, Graham L. Williams
16:45	The Alano section: the candidate GSSP for the Priabonian Stage Claudia Agnini, Jan Backman, Eliana Fornaciari, Simone Galeotti, Luca Giusberti, Paolo Grandesso, Luca Lanci, Simonetta Monechi, Giovanni Muttoni, Heiko Pälike, Maria Letizia Pampaloni, Johannes Pignatti, Isabella Premoli Silva, Isabella Raffi, Domenico Rio, Lorenzo Rook, Cristina Stefani
17:00	Correlation between Shallow Benthic Zones and calcareous plankton Zones at the Bartonian-Priabonian transition: preliminary results from the Varignano section (Trento Province, northern Italy) Cesare A. Papazzoni, Alessandra Moretti, Valeria Luciani, Eliana Fornaciari, Luca Giusberti
17:15	In search of the Bartonian (Middle Eocene) GSSP (II): Preliminary results from the Oyambre section (N Spain) Jaume Dinarès-Turell, Aitor Payros, Simonetta Monechi, Xabier Orue-Etxebarria, Silvia Ortiz, Estibaliz Apellaniz, Gilen Bernaola
17:30	The Bartonian (Middle Eocene) GSSP: Historical considerations and challenges Richard H. Fluegeman
17:45 - 18:30	Meeting International Subcommittee on Paleogene Stratigraphy (ISPS)

ROOM A3 - WEDNESDAY 3 JULY	
Theme 9 - Regional Stratigraphy s. I.	
14:00	Where do the boundaries lie? Alain Morard, Stefan Strasky, Reto Burkhalter, Andreas Möri
14:15	Harmonising the Swiss lithostratigraphic nomenclature Stefan Strasky, Alain Morard, Reto Burkhalter, Andreas Möri
14:30	Sedimentation Rates in the Late Cretaceous Epicontinental Basin in the South of the Russian Plate Ruslan Gabdullin, Aleksey Ivanov, Natalya Badulina
14:45	Lithological-Stratigraphic Characteristics of the Aptian-Cenomanian Sediments of the Abkhazian Zone of the Western Caucasus Ruslan Gabdullin, Valentina Vishnevskaya, Ludmila Kopaevich, Ekaterina Scherbinina, Oleg Zerkal, Eugene Samarin, Elena Yakovishina, Natalya Badulina
15:00	Sequence stratigraphy of the Plänerkalk, Elbtal and Danubian Cretaceous groups (Germany): early Late Cretaceous correlations around the Mid-European Island Nadine Richardt, Birgit Niebuhr, Markus Wilmsen
15:15	Stratigraphic and sedimentologic characteristics of Jurassic-Lower Cretaceous sediments at Köşrelük- Köşrelükiziği (North of Ankara-Turkey) Arif Delikan, Nesrin Atasagun
15:30	1st Poster Session - Poster Hall (Themes: 2a, 5, 10, 11, 14)
16:00 - 16:30	Coffee Break
16:30	Stratigraphy and Microfacies of the Cretaceous Limestones within the Bornova Flysch Zone (Spil Mountain, Manisa, W Turkey) Cemile Solak, Kemal Taslı, Sacit Özer
16:45	Constraints on the age of metasediments from western part (Ortaköy, Aksaray) of the Central Anatolian Crystalline Complex, Turkey Kerim Koçak
17:00	Cretaceous stratigraphy of outcrop sediments of Ariyalur area, Cauvery Basin, South India R. Nagendra, P. Sathiyamoorthy A. N. Reddy
17:15	Early Cretaceous stratigraphy of eastern Asia: non-marine and marine correlation Jingeng Sha, Xin Rao, Yanhong Pan, Yaqiong Wang, Huawei Cai

17:30	Stratigraphical propose to the post-rift sequences of Jatobá Basin, Northeastern Brazil Virgínio Henrique Neumann, Dunalson E. G. A. Rocha
17:45	The Devonian stratigraphic succession and evolution of the Baltic sedimentary basin Ervīns Lukševičs, Ģirts Stinkulis, Tomas Saks, Konrāds Popovs, Jānis Jātnieks

ROOM 1 - WEDNESDAY 3 JULY	
Theme 11 - Rodinia and Gondwana Stratigraphy and Geochronology	
14:00	Decipher a multi-event in a non-complex set of detrital zircon U/Pb ages A. Ferreira, C. Lopes, M. Chichorro, M. F. Pereira, A. R. Solá
14:15	CHRONIBERIA: ongoing development of a geochronological GIS database of Iberia C. Lopes, A. Ferreira, M. Chichorro, M. F. Pereira, A. R. Solá
14:30	The Cryogenian and Ediacaran records from Amazon Palaeocontinent Milene Freitas Figueiredo, Marly Babinski
14:45	The Cadomian Orogen: Neoproterozoic to Early Cambrian crustal growth and orogenic zoning along the northwestern periphery of the West African Craton Ulf Linnemann, Axel Gerdes, Mandy Hofmann, Linda Marko
15:00	Provenance analysis of the Late Ediacaran basins from SW Iberia (Serie Negra Succession and Beiras Group): Evidence for a common Neoproterozoic evolution M. Chichorro, A. R. Solá, M. F. Pereira, M. Hofmann, U. Linnemann, A. Gerdes, J. Medina, L. Lopes, J. B. Silva
15:15	Provenance of Cambro-Ordovician siliciclastic rocks of the SW Iberia: insights to the evolution of North Gondwana margin A. R. Solá, M. Chichorro, M. F. Pereira, M. Hofmann, U. Linnemann, A. Gerdes, J. Medina, L. Lopes, J. B. Silva
15:30	1st Poster Session - Poster Hall (Themes: 2a, 5, 10, 11, 14)
16:00 - 16:30	Coffee Break
16:30	Provenance analysis of Lower Paleozoic siliciclastic rocks of SW Iberia (Ossa-Morena Zone): distal shelf deposition in the North Gondwana passive margin M. F. Pereira, M. Chichorro, C. Lopes, A. R. Solá, J. B. Silva, M. Hofmann, U. Linnemann
16:45	The significance of changes in the source-areas during the Carboniferous turbiditic deposition (SW Iberia) Manuel F. Pereira, Martim A. Chichorro, Gabriel Gutierrez-Alonso, Filipa Vilallonga, Kerstin Drost, Carlos Ribeiro, José Brandão Silva, Luís Albardeiro, Mandy Hofmann, Ulf Linnemann
17:00	Permo-Carboniferous successions of the Tengchong Block, Western Yunnan, China: status and problems Jin Xiaochi, Huang Hao, Shi Yukun, Zhan Lipei
17:15	Provenance of the Upper Triassic basins during the first stages of rifting in Pangaea (SW Iberia) Filipa Vilallonga, Manuel F. Pereira, Carlos Ribeiro, Martim A. Chichorro, Mandy Hofmann, Kerstin Drost, Ulf Linnemann
17:30	Sedimentary provenance of Neogene strata from the SW Portuguese Coast (Sines Cape): detrital zircon U-Pb geochronology Luis Albardeiro, Manuel F. Pereira, Cristina Gama, Martim Chichorro, Mandy Hofmann, Ulf Linnemann

ROOM 2 - WEDNESDAY 3 JULY

Theme 14 - Chemostratigraphy, Magnetostratigraphy, Chronology, Palaeoenvironments and correlations

14:00	New advances in the stratigraphy and geochemistry of the organic-rich Lower Jurassic series of the Lusitanian Basin (Portugal) Luís V. Duarte, Ricardo L. Silva, João G. Mendonça Filho, Ana C. Azerêdo, Maria C. Cabral, Maria J. Comas-Rengifo, Gil Correia, Rui Ferreira, Isabel M. Loureiro, Ricardo Paredes, Alcides Pereira, Nadi P. Ribeiro
14:15	Carbon and oxygen isotopic signals from the Callovian- Oxfordian in French sedimentary basins Pierre Pellenard, Romain Tramoy, Marine Cornuault, Emmanuelle Pucéat, Annachiara Bartolini, Emilia Huret, Mathieu Martinez, Dominique Fortwengler, Didier Marchand, Jacques Thierry
14:30	Preliminary magnetostratigraphy for Jurassic/Cretaceous transition in Porto da Calada, Portugal Johanna Salminen, Jorge Dinis, Octávio Mateus
14:45	Integrated magnetic susceptibility and geochemical record of $\delta^{13}\text{C}$ anomalies in the Berriasian and Valanginian sections from the Tethyan domain (Western Carpathians, Poland) Jacek Grabowski, Leszek Krzemiński, Johann Schnyder, Katarzyna Sobieñ, Jan Hejnar, Leona Koptiková, Andrzej Pszczółkowski, Petr Schnabl
15:00	Integrated stratigraphy and palaeoenvironmental reconstruction for the Late Cretaceous Danish chalk based on the Stevns-2 core Myriam Boussaha, Nicolas Thibault, Lars Stemmerik
15:30	1 st Poster Session - Poster Hall (Themes: 2a, 5, 10, 11, 14)
16:00 - 16:30	Coffee Break
16:30	Isotopic events preceding Badenian Salinity Crisis in Central Paratethys, Middle Miocene, Poland Krzysztof Bukowski, Arjan de Leeuw, Małgorzata Gonera
16:45	Geochemical marked of recent Quaternary record from estuarines sediments of Jaboaão River, Pernambuco, Brazil Marta M. do Rego Barros Fernandes de Lima, Virgínio Henrique Neumann, M ^a Teresa Taboada Castro, Enjôlras de A. Medeiros Lima, Edmilson Santos de Lima, Ricardo Ferreira da Silva
17:00	The Holocene climatic recovery in SW Iberia preserved in limestone tuff deposits Carlos Ribeiro, Pedro Terrinha, Antje Voelker, António Candeias, Lúcia Rosado, Paulo Guerreiro
17:15	Geochemistry and chemostratigraphy of Meso-Neoproterozoic sedimentary rocks of Yenisei ridge (Siberia, Russia) Irina Vishnevskaya, Natalia Pisareva, Artem Proshenkin, Nadejda Kanygina

ROOM 3 - WEDNESDAY 3 JULY

Theme 10 - Stratigraphy of Iberian and Mediterranean Basins

14:00	3 rd -order sequence stratigraphic scheme for the Pliensbachian in the Lusitanian Basin (Portugal) Ricardo L. Silva, Luís V. Duarte, Maria J. Comas-Rengifo, Ana C. Azerêdo
14:15	Palaeogeographical evolution of the Lusitanian Basin (Portugal) during the Jurassic. Part I: the tectonical constraints and the sedimentary response José Carlos Kullberg, Rogério Bordalo da Rocha, António Ferreira Soares, Luís Vitor Duarte, Júlio Fonseca Marques
14:30	Correlation of the Middle Jurassic (Callovian) Formations across the Dead Sea rift Francis Hirsch, Howard R. Feldman, Fayeze Ahmad, Mena Schemm-Gregory, Mark A. Wilson
14:45	North Tunisian Lower Cretaceous, stratigraphical approach by ammonites and microfaunas: a model for the Tethys Southern margin Nébiha Ben Haj Ali, Lucia Memmi

15:00	Clays and vegetation: comparing palaeoclimatic signatures in the Portuguese Lower Cretaceous Jorge Dinis, Mário Mendes, Pedro Dinis, João Pais, Jacques Rey, Ulrich Heimhofer
15:30	1 st Poster Session - Poster Hall (Themes: 2a, 5, 10, 11, 14)
16:00 - 16:30	Coffee Break
16:30	Correlating Mediterranean shallow water deposits with global Oligocene–Miocene stratigraphy and oceanic events Werner E. Piller, Markus Reuter, Marco Brandano, Mathias Harzhauser
16:45	A description of Terrestrial Neogene Deposits in Beyköyü-Gökçeyazi area (Ereğli, Konya, Central Turkey) Ali Müjdat Özkan, Fuat Çömlekciler
17:00	Stratigraphical features of the Yeşilyurt - Konak area (Malatya, Turkey) Ali Müjdat Özkan

POSTER HALL - WEDNESDAY 3 JULY		
Board n.º	Theme	1st POSTER SESSION (Themes 2a, 5, 10, 11, 14)
#01		In search of the Bartonian (Middle Eocene) GSSP (I): Potential in the Basque-Cantabrian and Aquitanian Basins (W Pyrenees) Aitor Payros, Jaume Dinarès-Turell, Xabier Orue-Etxebarria, Simonetta Monechi, Silvia Ortiz, Estibaliz Apellaniz, Gilen Bernaola
#02		Early Eocene Cerithioidean gastropods in a subtropical coast (South Pyrenees, Spain) Stefano Dominici, Thorsten Kowalke
#03		The Criteria for the Bartonian boundaries in North-Eastern Peritethyan and Tethyan areas Elena Zakrevskaya
#04		Differential effects of bioturbation on benthic foraminiferal distribution across the Cretaceous/Paleogene (K/Pg) boundary at Bidart (SW France) Laia Alegret, Francisco J. Rodríguez-Tovar, Alfred Uchman
#05		Benthic foraminifera, food supply and carbonate saturation across the Cretaceous/Paleogene boundary: Southern Ocean Site 690 Laia Alegret, Ellen Thomas
#06		Paleogene carbonates of Oman: Lithofacies and Stratigraphy Michaela Bernecker
#07		Integrated stratigraphy (magneto-, bio- and chronostratigraphy) and geochronology of the Paleogene pelagic succession of the Umbria–Marche Basin (central Italy) Rodolfo Coccioni, Rita Catanzariti, Fabrizio Frontalini, Luigi Jovane, Sandro Montanari, Jairo Savian, Marianna Sideri
#08		Paleocene siliceous sediments in the SW-Pacific Juliane Fenner
#09		Planktonic foraminiferal biostratigraphy across the Eocene/Oligocene boundary in the North Adriatic Sea Vlasta Premec Fucek, Morana Hernitz Kucenjak
#10	2a	New and revised planktonic foraminiferal bioevents of the (Middle) Eocene Shari Hilding-Kronforst, Bridget Wade
#11		Palynology as a high resolution tool for cyclostratigraphy in Middle Eocene lacustrine sediments – the outstanding record of Messel (Germany) Olaf K. Lenz, Volker Wilde, Walter Riegel
#12		Paleogene marine stratigraphy in China Xiaoqiao Wan, Guobiao Li, Tian Jiang
#13		The Levant margin in the Early and Middle Eocene: carbonate sedimentation and calcareous nannofossil trophic index Menahem Weinbaum-Hefetz, Chaim Benjamini
#14		Rapid warming at the PETM and its influence on vegetation in Denmark Pi Suhr Willumsen, Bo Pagh Schultz, Rene Sylvester
#15		Atlas of Paleocene Shallow Larger Benthic Foraminifera – An introductory note Vlasta Čosović, Claudia Baumgartner-Mora, Andrea Benedetti, Antonino Briguglio, Massimo Di Carlo, Katica Drobne, Carles Ferrández Cañadell, Johann Hohenegger, Botond Kertész, Gyorgy Less, Vábor Novák, Ercan Özcan, Cesare A. Papazzoni, Johannes Pignatti, Nevio Pugliese, Willem Renema, Rula Hosseinzadeh, Mona Seddighi, Elena Zakrevskaya
#16		Identification of the Paleocene -Eocene boundary based on larger foraminifers on the Paleogene Adriatic carbonate platform (PgAdCP) (sections Sopada, Vrhpolje, SW Slovenia) Katica Drobne, Jernej Jež, Vlasta Čosović, Bojan Ogorelec, Barbara Stenni, Elena Zakrevskaya, Lukas Hottinger [†]
#17		Biostratigraphy of the Middle Eocene Kohat Formation, Himalayan Fold and Thrust Belt, Northern Pakistan. Kamran Mirza
#18		Mass extinction and turnover at the Cretaceous-Paleogene boundary in the Izeh section (Zagros Basin, SW Iran) Dalila Zaghib-Turki, Bijan Biranvand
#19		A revised Paleocene (Teurian) dinoflagellate cyst zonation from eastern New Zealand Erica M. Crouch, Pi Suhr Willumsen, Denise Kulhanek, Samantha Gibbs
#20	5	The first case study of ²³⁰ Th/U-dating of buried wood remnants from Siberia Fedor Maksimov, Vladislav Kuznetsov, Stanislav Laukhin, Sergey Larin

Board n.º	Theme	1st POSTER SESSION (Themes 2a, 5, 10, 11, 14)
#21	10	The Lower and Middle Jurassic of the Western Mediterranean Tethys (Morocco - Algeria and Tunisia) Driss Sadki, Abbas Marok, Mohamed Soussi
#22		Palaeogeographical evolution of the Lusitanian Basin (Portugal) during the Jurassic. Part II: the slow-to-fast transformations of the sedimentary infilling José Carlos Kullberg, Rogério Bordalo da Rocha, António Ferreira Soares, Luís Vitor Duarte, Júlio Fonseca Marques
#23		Clay minerals in the Toarcian marly limestone deposits of the Eastern sectors of the Lusitanian Basin (Portugal). Stratigraphic and palaeoenvironment significance A. Caniço, L.V. Duarte, F. Rocha
#24		Palaeoenvironmental and palaeoecological significance of sponge-microbialite buildups from the Toarcian of Northern Lusitanian Basin (Portugal) M. Reolid, L. V. Duarte
#25		Elemental geochemical analysis at the Lower Toarcian of the Rabaçal section (Northern Lusitanian Basin, Portugal): approaching the environmental disturbance produced by the T-OAE M. Reolid, L. V. Duarte, D. Gallego-Torres
#26		The stratigraphy and rifting evolution of the Oxfordian-Upper Barremian (Upper Jurassic-Lower Cretaceous) in the Serranía de Cuenca (Southwestern Iberian Ranges, Spain) Marian Fregenal-Martínez, Javier Elez, M. Belén Muñoz-García, Raúl de la Horra
#27		Paleoenvironmental changes and C-isotope stratigraphy in the Alarcón Formation stratotype (Upper Cenomanian-Lower Coniacian, Iberian Ranges, Spain) A. Muñoz-Moreno, M. Domínguez-Morales, L.M. Robredo, I. Rosales, J. Martín-Chivelet
#28	11	Biostratigraphic correlation of the Cambrian succession between Shandong Province, North China and the Taebaeksan Basin, Korea Tae-Yoon Park, Jusun Woo, Ji-Hoon Kihm, Duck K. Choi, Sung Kwun Chough
#29		Stratigraphy of the Lower Paleozoic Bowers Supergroup, Northern Victoria Land, Antarctica: preliminary results from the Korea Antarctic geological expedition 2012-13 Jusun Woo, Young-Hwan Kim, Tae-Yoon Park, Jong Ik Lee, In Sung Yoo, Sangbum Park, Moon Young Choe
#30	14	The elemental stratigraphy of the South Caspian Lower Pliocene Productive Series Akif Alizada, Elmira Aliyeva, Dadash Huseynov, Ibrahim Guliyev
#31		Magnetic parameters of a Toarcian marl-limestone succession, Maria Pares, Portugal: a preliminary study Celeste Gomes, Armando Rocha, Luís V. Duarte, Helena Sant'Ovaia
#32		The Upper Cenomanian-Lower Turonian anoxic event in the carbonate platform of the Preafrican Trough, Morocco V. Lebedel, C. Lézin, B. Andreu, M.-J. Wallez, El M. Ettachfani, L. Riquier
#33		Late Jurassic Bio- and Chemostratigraphy of the Lower Saxony Basin, Northern Germany Friedrich Wilhelm Luppold, Carmen Heunisch, Jochen Erbacher, Matthias Heldt, Sebastian Caesar
#34		Stratigraphic significance of water geochemistry Iréen Varsányi, Lajos Ó.Kovács

THURSDAY 4 JULY 09:00 - 18:30	
09:00 - 11:00	Oral presentations (Rooms A3, 1, 2) Meeting <i>Comité Français de Stratigraphie</i> (Room 3)
11:00 - 11:30	Coffee break
11:30 - 12:30	2nd Plenary Session - Bruno Vrielynck "Stratigraphy, palaeogeography: a fruitful permanent dialogue" (Room A2)
12:30 - 14:00	Lunch break
14:00 - 15:30	Oral presentations (Rooms A2, A3, 1, 2, 3)
15:30 - 16:00	2 nd Poster Session (Poster Hall)
16:00 - 16:30	Coffee break
16:30 - 17:30	Oral presentations (Rooms A2, A3, 1, 2, 3)
17:45 - 18:30	International Commission on Stratigraphy General Assembly (Room A2)

ROOM A2 - THURSDAY 4 JULY	
11:30 - 12:30	2 nd Plenary Session - Bruno Vrielynck "Stratigraphy, palaeogeography: a fruitful permanent dialogue" (Room A2)
12:30 - 14:00	Lunch break
Theme 22 - Stratigraphy in Palaeoceanography	
14:00	Invited conference. The challenge of a consistent early Paleogene Geochronology Thomas Westerhold
14:30	Cenomanian shallow water bivalve accumulation on the pelagic part of the Arabian Platform, Mardin-Mazidag area, SE Turkey I. O. Yilmaz, I. Hosgor, D Altiner
14:45	Invited conference. The stratigraphy and nomenclature of millennial-scale climate change Antje Voelker
15:15	Pleistocene sediment sequence of the southern Lomonosov Ridge, Arctic Ocean: preliminary stratigraphic subdivision based on IRD and benthic foraminiferal records Ekaterina Taldenkova, Sergei Nikolaev, Pavel Rekant, Nataliya Chistyakova
15:30	Biostratigraphy of the Holocene and of the main cold events of the late Quaternary in the Gulf of Cadiz Emmanuelle Ducassou, Rim Hassan, Vincent Hanquiez, Josette Duprat, Eliane Gonther, Thierry Mulder, Samuel Toucanne
15:30	2 nd Poster Session - Poster Hall (Themes: 2, 3, 6, 9, 13, 16, 22)
16:00 - 16:30	Coffee Break

16:30	Isotopic stratigraphy and biostratigraphy of a modern carbonate system: The northern Bahamas slope over the late Quaternary Ludivine Chabaud, Emmanuelle Ducassou, Thierry Mulder, Jacques Giraudeau
17:00	Invited conference. Speleothem microstratigraphy: some clues for paleoclimate series reconstruction at centennial to decadal scales Javier Martin-Chivelet
17:15	High resolution biostratigraphy of Holocene on cores from the Bahamian slopes Emmanuelle Ducassou, Ludivine Chabaud, Sabine Schmidt, Thierry Mulder
17:45 - 18:30	International Commission on Stratigraphy General Assembly

ROOM A3 - THURSDAY 4 JULY	
Theme 9 - Regional Stratigraphy s. I.	
09:00	Volcanism, relative sea level change and stratigraphic record: an Oligocene example Andrea di Capua, Gianluca GropPELLI, Giovanni Vezzoli
09:15	Tectono-stratigraphic position of the Kaminnyi Potik Unit in the Ukrainian Carpathians and volcanogenic rocks of the Chyvchyn Mount Michał Krobicki, Oleh Hnylko, Anna Feldman-Olszewska, Jolanta Iwańczuk
09:30	Stratigraphic schemes for the North Pacific Paleogene and Neogene: geological events, biotic evolution and biogeographic scenarios for the last 65 Ma Yury B. Gladenkov
09:45	Stratigraphic transect of NW Colombia: a key to understanding the origin of the Panamanian Isthmus Andrés Pardo, José-Abel Flores, Sergio Restrepo, Jairo Alonso Osorio, Diana Ochoa, Juan Carlos Silva, Carlos Borrero, Agustín Cardona, Ángel Barbosa, Alejandra Mejía, Ángel Plata, Felipe Vallejo, Raúl Trejos, Francisco J. Sierra, María A. Bárcena, Camilo Montes
10:00	Base and new definition of the Lower Badenian and the age of the Badenian stratotype (Middle Miocene, Central Paratethys) Michael Wagreich, Johann Hohenegger, Stjepan Čorić
10:15	Unique features of interglacial deposits (MIS 11, E Poland): comparison of palaeobotanical and geological data Irena A. Pidek, Tomasz Zielinski, Sławomir Terpilowski, Piotr Czubla, Anna Hrynowiecka, Jarosław Kusiak, Anna Godlewska, Paweł Zielinski, Marzena Malek
10:30	Distribution and relevance of sand sediments in the lagoons associated with Sefidrud Delta, South-West of the Caspian Sea S. Haghani, S. A. G. Leroy
10:45	Environmental reconstruction of the southwest portion of Maracujá River basin, based on palynological and sedimentary analysis, associated to carbonaceous level radiocarbon dating Maria Paula Delicio, João Paulo Marques Machado Teixeira, Makênia Oliveira Soares Gomes, Maria de Fátima Rodrigues Sarkis
11:00 - 11:30	Coffee break
11:30 - 12:30	2 nd Plenary Session - Bruno Vrielynck "Stratigraphy, palaeogeography: a fruitful permanent dialogue" (Room A2)
12:30 - 14:00	Lunch break
14:00	The "Home-Land" of the Torinosu-type limestone in perspective of the Jurassic accretionary tectonics in SW Japan Keisuke Ishida, Takeshi Kozai, Francis Hirsch
14:15	Infracal subdivision of the Volgian Stage in its type area by ammonites and correlation of the Volgian and Tithonian Stages Mikhail Rogov
14:30	Review of the Jurassic System of Russia: stages, boundaries and perspectives Victor Zakharov, Mikhail Rogov
14:45	Lower and Middle Jurassic stratigraphic scheme of the Western Caucasus: problems of correlation and division V. Ja. Vuks

15:00	Stratigraphical characteristics of the Derinkuyu area, Nevsehir, Turkey Ali Riza Sogut, Kerim Koçak, Ahmet Güzel
15:15	Stratigraphic Features of the Yesilova Ophiolite, Burdur, Southwest Turkey Adnan Doyen, Fuat Çömlekçiler, Kerim Koçak
15:30	2 nd Poster Session - Poster Hall (Themes: 2, 3, 6, 9, 13, 16, 22)
16:00 - 16:30	Coffee Break
Theme 8 - Phylogeny, Palaeobiodiversity and Palaeogeography	
16:30	Geobiodiversity database and its application in stratigraphic research Fan Junxuan, Hou Xudong, Chen Qing, Chen Zhongyang
16:45	Recent progress in assessing paleobiodiversity and its evolution through time Michel Laurin
17:00	Fusulinid diversification and the contemporaneous sea level change of the Dian-qian-gui Basin during Early and Middle Permian, South China Shi Yukun

ROOM 1 - THURSDAY 4 JULY	
Theme 13 - Sequence Stratigraphy, Seismic Stratigraphy and Seismic Geomorphology	
09:00	Megablocks and the stratigraphic record of continental margins: How large an event do they materialise? Tiago M. Alves
09:15	Geometry and classification of submarine canyon confluences Davide Gamboa, Tiago Alves
09:30	Facies and stratigraphic controls of the palaeokarst affecting the Lower Jurassic Coimbra Group, western-central Portugal Luca Antonio Dimuccio, Luís Vítor Duarte, Lúcio Cunha
09:45	Sequence-Stratigraphic analysis of the Aptian deposits in the valley of the Mzymta River Ruslan Gabdullin, Aleksey Ivanov, Ekaterina Shcherbinina, Oleg Zerkal', Evgenii Samarin, Dmitry Nadezhkin, Aleksey Bershov, Sergei Naumov
10:00	Sequence stratigraphy of sedimentary basins in Europe, northern Africa and the Middle East: implications for rates and periodicities of early Late Cretaceous sea-level changes Markus Wilmsen, Nadine Richardt, Birgit Niebuhr
10:15	The Mesozoic platform megasequences in the Eastern part of the Russian Plate Svetlana O. Zorina
10:30	Seismic geometries and facies analysis of a Quaternary Tunnel glacial valley infill in the Dutch North Sea. Preliminary results Antonio Benvenuti, Andrea Moscariello
10:45	Stratigraphy by Wavelet Transform Sunjay
11:00 - 11:30	Coffee break
11:30 - 12:30	2 nd Plenary Session - Bruno Vrielynck "Stratigraphy, palaeogeography: a fruitful permanent dialogue" (Room A2)
12:30 - 14:00	Lunch break
Theme 2 - Events Stratigraphy	
14:00	Impact of the Boda Event (Upper Ordovician) on high-latitude peri-Gondwanan faunas: an echinoderm perspective Bertrand Lefebvre, Yamouna Makhlof, Elise Nardin, Ahmed Nedjari, Alexandra Touzeau

14:15	Bio- and litho-stratigraphic markers of the Mid-Pennsylvanian event - application for detailed stratigraphy and correlation (East-European Platform) Olga L. Kossovaya, Denis I. Leontiev, Tatyana N. Isakova
14:30	Size variation of conodonts during the Smithian-Spathian (Early Triassic) global warming event Yanlong Chen, Richard J. Twitchett, Haishui Jiang, Sylvain Richoz, Xulong Lai, Chunbo Yan, Yadong Sun, Xiaodan Liu, Lina Wang
14:45	Dinocyst stratigraphy and paleoenvironmental interpretation of the Cretaceous/Paleogene boundary at Stevns Klint, Denmark Meriel E. J. FitzPatrick, Malcolm B. Hart, David A. Forber
15:00	Cretaceous–Paleogene boundary events in Texas: new sections, revised micropalaeontological interpretations and clarification of the stratigraphy Malcolm Hart, Andrew Leighton, Tom Yancey, Matthew Hampton, Chengjie Liu, Brent Miller, Christopher Smart, Richard Twitchett
15:30	2 nd Poster Session - Poster Hall (Themes: 2, 3, 6, 9, 13, 16, 22)
16:00 - 16:30	Coffee Break
Theme 1 - Methods, technology and new trends	
16:30	The fate of formal lithostratigraphy Geza Csaszar
16:45	The Triassic timescale 2013 Spencer G. Lucas, Lawrence H. Tanner
17:00	Sequence stratigraphy of continental rift basins. I – A conceptual discussion of discrepant models Michael Holz, Edric Troccoli, Marcelo Vieira
17:15	Sequence stratigraphy of continental rift basins. II – An example from the Brazilian Cretaceous Recôncavo Basin Michael Holz, Edric Troccoli, Marcelo Vieira

ROOM 2 - THURSDAY 4 JULY	
Theme 16 - The Quaternary System and its Formal Subdivision	
09:00	The Quaternary System/Period: current status and future challenges. M. J. Head, P. L. Gibbard, T. van Kolfschoten
09:15	The Valle di Manche section (Calabria, Southern Italy): a candidate section for the GSSP of the Ionian Stage (Middle Pleistocene Subseries) Luca Capraro, Gian Battista Vai, Jan Backman, James E.T. Channell, Francesco Massari, Domenico Rio, Daniele Scarponi, Maria Sgavetti, Fabio Tateo
09:30	The Montalbano Jonico section (Southern Italy): a candidate for the GSSP of Ionian Stage (Lower-Middle Pleistocene boundary) N. Ciaranfi, G. Aiello, D. Barra, A. Bertini, A. Girone, P. Maiorano, M. Marino, P. Petrosino
09:45	A potential Lower–Middle Pleistocene GSSP with excellent magnetostratigraphy along the west Pacific margin: the Chiba section, Central Japan Osamu Kazaoka, Hisashi Nirei, Nobuyuki Aida, Hisao Kumai, Martin J. Head, Brad Pillans
10:00	High resolution magneto-climatostratigraphy of MIS 19 from the Osaka Group, Japan Masayuki Hyodo, Ikuko Kitaba
10:15	A reassessment of the Matuyama–Brunhes boundary age based on post-depositional remanent magnetization (PDRM) lock-in effect for marine sediments Yusuke Suganuma
10:30	Searching for a stratotype section for the Late Pleistocene: news from the Fronte section (Taranto area) Alessandra Negri, Alessandro Amorosi, Fabrizio Antonioli, Adele Bertini, Giuseppe Mastronuzzi, Stefano Marabini, Paolo Montagna, Veronica Rossi, Daniele Scarponi, Marco Taviani, Luigi Vigliotti, Gian Battista Vai
10:45	Evaluating the concept of a global 'Last Glacial Maximum' (LGM): a terrestrial perspective Philip D. Hughes, Philip L. Gibbard

11:00 - 11:30	Coffee break
11:30 - 12:30	2 nd Plenary Session - Bruno Vrielynck "Stratigraphy, palaeogeography: a fruitful permanent dialogue" (Room A2)
12:30 - 14:00	Lunch break
Theme 16 - The Quaternary System and its Formal Subdivision	
14:00	Formal subdivision of the Holocene Series/Epoch M. J. C. Walker, P. L. Gibbard, M. Berkelhammer, S. Bjorck, L. C. Cwynar, D. A. Fisher, A. J. Long, J. J. Lowe, R. M. Newnham, S. O. Rasmussen, H. Weiss
14:15	Peat stratigraphy and changes in peat formation during the Holocene in Latvia Laimdota Kalnina, Eliza Kuske, Ilze Ozola
14:30	The transgressive Early-Middle Holocene boundary – the case for a GSSP at Rotterdam, Rhine Delta, North Sea Basin K. M. Cohen, M. P. Hijma
14:45	Potential formalization of the Anthropocene: a progress report Jan Zalasiewicz, Colin Waters, Mark Williams
15:00	Evidence for a stratigraphical basis for the Anthropocene Colin N. Waters, Jan Zalasiewicz, Mark Williams, Simon J. Price, Jon R. Ford, Anthony H. Cooper
15:15	Open discussion on the Anthropocene
15:30	2 nd Poster Session - Poster Hall (Themes: 2, 3, 6, 9, 13, 16, 22)
16:00 - 16:30	Coffee Break
Theme 6 - Teaching of Stratigraphy, Geological Heritage and Geoethics	
16:30	Virtual tours through Earth history and paleoclimate: examples from the Piemonte (NW Italy) geoheritage (PROGEO-Piemonte project) C. Bertok, F. Lozar, A. Magagna, E. Giordano, A. d'Atri, F. Dela Pierre, M. Natalicchio, L. Martire, P. Clari, D. Violanti, L. Ghiraldi
16:45	ABCgHeritage project – a tool for geo-education Jouni Pihlaja, Peter Johansson
17:00	Geological and cultural routes of the Brecha da Arrábida: a contribution to the candidature of Arrábida for UNESCO's Mixed World Heritage List José Carlos Kullberg, Cristina Coelho, António Prego
17:15	Stratigraphy and conservation of cultural heritage: the example of rupestrian churches of Cappadocia (Turkey) N. Rovella, S. Marabini, G. M. Crisci

ROOM 3 - THURSDAY 4 JULY	
09:00 - 11:00	Meeting <i>Comité Français de Stratigraphie</i>
11:00 - 11:30	Coffee break
11:30 - 12:30	2 nd Plenary Session - Bruno Vrielynck "Stratigraphy, palaeogeography: a fruitful permanent dialogue" (Room A2)
12:30 - 14:00	Lunch break
Theme 3 - Cyclostratigraphy and recent developments in the astronomical calibration of the Geological Time Scale	
14:00	Permian stratigraphic record within Volga-Kama region: cyclic and fractal properties N. G. Nurgaliev, D. K. Nurgaliev
14:15	Limitations of the astronomically-tuned timescale: case study from the Newark Basin Lawrence H. Tanner, Spencer G. Lucas
14:30	Upper Tithonian-Lower Berriasian meter-scale cyclicity and magnetic susceptibility changes along the peritidal carbonate succession, central Taurides, southern Turkey I. O. Yilmaz, D. Altiner, F. Ocakoglu
14:45	Cyclostratigraphy of a Tithonian-Valanginian carbonate ramp succession, Southern Mendoza, Argentina: Implications for the Jurassic-Cretaceous boundary in the Neuquén Basin Diego A. Kietzmann, Ricardo M. Palma
15:00	Astronomical calibration of the Valanginian "Weissert" episode: the Orpierre marl-limestone succession (Vocontian Basin, southeastern France) Guillaume Charbonnier, Slah Boulila, Silvia Gardin, Stéphanie Duchamp-Alphonse, Thierry Adatte, Jorge E. Spangenberg, Karl B. Föllmi, Christophe Colin, Bruno Galbrun
15:15	Astrochronology of the Valanginian Stage from GSSP candidates and hypostratotype Mathieu Martinez, Jean-François Deconinck, Pierre Pellenard, Stéphane Reboulet, Laurent Riquier
15:30	2 nd Poster Session - Poster Hall (Themes: 2, 3, 6, 9, 13, 16, 22)
16:00 - 16:30	Coffee Break
16:30	Orbital chronology of the Lower-Middle Aptian: Palaeoenvironmental implications (Serre Chaitieu section, Vocontian Basin) Jean-François Deconinck, Julie Ghirardi, Mathieu Martinez, Ludovic Bruneau, Emmanuelle Pucéat, Pierre Pellenard
16:45	An astronomically calibrated timing, mineralogy and geochemistry of the Late Campanian <i>Radotruncana calcarata</i> planktonic foraminifer Zone Michael Wagreich, Johann Hohenegger, Stephanie Neuhuber
17:00	Extending back the paleogene astronomical time scale: an integrated analysis of the Upper Maastrichtian strata in the basque basin Jaume Dinarès-Turell, Victoriano Pujalte, Kristalina Stoykova, Javier Elorza
17:15	Orbital chronology of the middle to late Eocene from high-resolution equatorial Pacific and N Atlantic Ocean sections Thomas Westerhold, Ursula Röhl
17:30	A 65 million year long astronomical time scale for the Mesozoic deep-sea sequence (Inuyama, Japan): Implications for the Triassic-Jurassic time scale Masayuki Ikeda, Ryuji Tada, Hironobu Sakuma

POSTER HALL - THURSDAY 4 JULY			
Board n.º	Theme	2nd POSTER SESSION (Themes 2, 3, 6, 9, 13, 16, 22)	
#01	2	Latest Bajocian bio-events of ammonite immigration and colonization in the Tarapaca Basin (northern Chile): palaeoenvironmental implications in sequence stratigraphy Sixto Rafael Fernandez-Lopez, Guillermo Baltazar Chong-Diaz	
#02	3	Settling the Danian astronomical time scale: a prospective global unit stratotype at zumaia, basque basin Jaume Dinarès-Turell, Thomas Westerhold, Victoriano Pujalte Ursula Röhl, Dick Kroon	
#03	6	Magnetostratigraphic models as teaching models to learn Stratigraphy: examples of Portuguese 12 th grade Geology Education Celeste Gomes	
#04	9	Integrated stratigraphy and facies analysis of the Upper Albian–Turonian (Cretaceous) Debarsu Formation (Yazd Block, Central Iran) Markus Wilmsen, Marisa Storm, Franz Theodor Fürsich, Mahmoud Reza Majidifard	
#05		Sequence stratigraphy of the lower Upper Cretaceous Elbtal Group (Cenomanian–Turonian of Saxony, Germany) Nadine Richardt, Markus Wilmsen	
#06		Palynomorphs from Pliensbachian-Toarcian transition in Benzerka Section (Traras Mountains, northwestern Algeria): preliminary data Louisa Samar, Abbas Marok, Choukri Soulimane, Fatiha Hadji	
#07		Integrated stratigraphy (bio- and sequence stratigraphy) and facies analysis of the Upper Cenomanian–Turonian (lower Upper Cretaceous) in the Eastern Desert, Egypt Markus Wilmsen, Emad Nagm	
#08		Vertebrate and miospore assemblages from the Famennian of North Timan (Upper Devonian, Russia) Pavel Beznosov, Valentina Mantsurova, Ervins Lukševičs	
#09		Stratigraphic Sequence of Paleogene-Neogene of Tibet Plateau and their Response to the Uplift of the Plateau Kexin Zhang, Guocan Wang, Mansheng Luo, Yadong Xu, Bowen Song, Junliang Ji	
#10		Tectonic implications of deep-marine Miocene strata in the western Andean Cordillera of south-central Chile (40°-42°S) Alfonso Encinas, Patricio Zambrano, Pablo Bernabé, Kenneth Finger, Luis Buatois, Victor Valencia, Mark Fanning, Francisco Hervé	
#11		Pleistocene deposits of the Swiss Northern Alpine Foreland: stratigraphic concept and nomenclature Hans Rudolf Graf, Reto Burkhalter	
#12		Cenomanian–Turonian (early Late Cretaceous) facies development and sequence stratigraphy of the Danubian Cretaceous Group (Bavaria, southern Germany) Birgit Niebuhr, Nadine Richardt, Markus Wilmsen	
#13		13	Sequence stratigraphy of late Quaternary deposits in the southeastern Yellow Sea of Korea Dae Choul Kim, Sung Ho Bae, Gwang Soo Lee, Seong Pil Kim, Hi Il Yi, Kap Sik Jeong
#14			Sequence Stratigraphy of the Cambrian and Ordovician Series in the Illizi Basin (Algeria) Khemissi Zellouf, Hamid Ait Salem
#15	16	Climate-stratigraphy of Kazantsevo horizon (as an analogue of MIS-5) in boreal zone of Western Siberia Stanislav Laukhin, Vladislav Kuznetsov, Fedor Maksimov, Galina Shilova, Aleksey Firsov	
#16		Well-preserved beach landform and sedimentary structure in East Antarctic coast affected by glacial-isostatic rebound Hideki Miura, Jun'ichi Okuno, Hideaki Maemoku	
#17		Do old mining waste deposits from Austria define an "old" Anthropocene? Michael Wagreech	
#18		On the problems of correlating the Pleistocene glacial deposits in Russian Altai with Siberian stratigraphic scales A. R. Agatova, R. K. Nepop, H. Rodnight	
#19		Stratigraphy of the Caspian Sea Neopleistocene (on the base of Didacna Eichwald mollusks) Tamara Yanina	
#20		Clastic cave sediments and speleogenesis of the Buraca Escura archaeological site (western-central Portugal) Luca Antonio Dimuccio, Jorge Dinis, Thierry Aubry, Lúcio Cunha	
#21		Stratigraphic sequence of the Con Moong Cave, Thanh Hoa Province, its implication for Late Quaternary stratigraphy in North Vietnam Doan Dinh Lam, Nguyen Khac Su	

Board n.º	Theme	2nd POSTER SESSION (Themes 2, 3, 6, 9, 13, 16, 22)
#22	16	The 'Anthropocene' and the Present is the Key to the Past K. M. Cohen
#23		It's Time to Revitalize the Tertiary Lucy E. Edwards, Randall C. Orndorff, Martin J. Head, Robert A. Fensome
#24		
#25	22	Climate variability recording in lagoonal environment during the Upper Hauterivian in the Lusitanian Basin C. Lézin, P. S. Caetano, P. Gonçalves, J. Rey, F. Rocha, R. B. Rocha
#26		Biostratigraphy in the abyssal eastern Equatorial Pacific Ocean J. M. Fenner, A. di Stefano
#27		Isfjorden, Western Spitsbergen (Svalbard, Norway): Late Holocene stratigraphy and pollen case study Olga Rudenko

FRIDAY 5 JULY 09:00 - 18:30	
09:00 - 11:00	Oral presentations (Rooms A2, A3, 1, 2, 3)
11:00 - 11:30	Coffee break
11:30 - 12:30	3rd Plenary Session - Vitor Abreu "Accommodation succession method: impact in petroleum exploration" (Room A2)
12:30 - 14:00	Lunch break
14:00 - 15:30	Oral presentations (Rooms A2, A3, 1, 2, 3)
15:30 - 16:00	3 rd Poster Session (Poster Hall)
16:00 - 16:30	Coffee break
16:30 - 17:45	Oral presentations (Rooms A2, A3, 1, 2) Meeting International Subcommittee on Quaternary Stratigraphy (ISQS) (Room 3)
17:45 - 18:30	CLOSING CEREMONY (Room A2)

ROOM A2 - FRIDAY 5 JULY	
Theme 15 - Stratigraphy applied to oil industry	
10:30	Factors controlling trace-metal distribution in alluvial and coastal deposits: implications for hydrocarbon exploration Alessandro Amorosi, Irene Sammartino
10:45	A multi-facetted approach to stratigraphy; one that is applicable to the oil and gas industry Emma-Jane Davies, Kenneth Thomas Ratcliffe, Paul Montgomery, Luis Pomar, Brooks B. Ellwood, David S. Wray
11:00 - 11:30	Coffee break
11:30 - 12:30	3 rd Plenary Session - Vitor Abreu "Accommodation succession method: impact in petroleum exploration"
12:30 - 14:00	Lunch break
Theme 18 - Fossil Invertebrates in Stratigraphy	
14:00	Stratigraphic and palaeogeographic distribution of the Ordovician eocrinoid <i>Ascocystites</i> BARRANDE, 1887 (Echinodermata, Blastozoa) Yamouna Makhoulouf, Bertrand Lefebvre, Elise Nardin, Ahmed Nedjari, Serge Régnauld, Mohamed Ferhi
14:15	Bivalves in Late Devonian to Early Mississippian biostratigraphy Michael R. W. Amler
14:30	Missippian-Pennsylvanian boundary beds in the South Urals Elena Kulagina, Svetlana Nikolaeva, Vladimir Pazukhin
14:45	Fossil Bryozoans in Stratigraphy of Mongolia Yarinpil Ariunchimeg

15:00	Morphological evolution of <i>Claraia</i> species from the Late Permian (Changhsingian) to the Early Triassic (Induan) and the response to the Permian-Triassic stressed environment Weihong He, Kexin Zhang, Tinglu Yang, Shunbao Wu
15:15	Community dynamics of Upper Sinemurian macrobenthic groups (bivalves, brachiopods) preserved in organic-rich facies of the Lusitanian Basin (W Iberia) Ricardo Paredes, María J. Comas-Rengifo, Luís V. Duarte
15:30	3 rd Poster Session - Poster Hall (Themes: 4, 7, 8a, 15, 17, 18, 19, 20)
16:00 - 16:30	Coffee Break
17:45 - 18:30	CLOSING CEREMONY

ROOM A3 - FRIDAY 5 JULY	
Theme 8a - Paleozoic Stratigraphy and Palaeogeography	
09:00	Sedimentological causes of some problems in Cambrian Stratigraphy of the Siberian Platform Sergey Sukhov
09:15	Carbon and sulfur isotopes from the Cambrian Series 2–Series 3 boundary: potential proxies for a global correlation? Thomas Wotte
09:30	The Montalto Formation: a pre- to basal Ordovician succession in the Dúrico-Beirã area (northern Portugal) Helena Couto, Jasper Knight
09:45	A revised correlation of Lower Ordovician sedimentary rocks in the Central Iberian Zone (Portugal and Spain) A. A. Sá, J. C. Gutiérrez-Marco, C. A. Meireles, D. C. García-Bellido, I. Rábano
10:00	The Fezouata Biota (Central Anti-Atlas, Morocco): biostratigraphy and associated environmental conditions of an Ordovician Burgess Shale Emmanuel Martin, Bertrand Lefebvre, Bernard Pittet, Jean Vannier, Ali Bachnou, Khadija El Hariri, Ahmid Hafid, Moussa Masrouf, Fleur Noailles, Hendrik Nowak, Thomas Servais, Thijs R.A. Vandenbroucke, Peter Van Roy, Muriel Vidal, Daniel Vizcaïno
10:15	Application of Wavelets in cyclostratigraphy of the Géluva regional stage (Upper Hommerian: Silurian) in the Viduklė-61 deep well (Western Lithuania) Sigitas Radzevičius, Andrej Spiridonov, Antanas Brazauskas
10:30	Pridolian to early Eifelian brachiopod zonation of the Rhenish Massif (Germany) Ulrich Jansen
10:45	Miospore zonation of the Givetian Stage and its upper boundary in the South-East of the Russian Plate Valentina Mantsurova
11:00 - 11:30	Coffee break
11:30 - 12:30	3 rd Plenary Session - Vitor Abreu "Accommodation succession method: impact in petroleum exploration" (Room A2)
12:30 - 14:00	Lunch break
14:00	Sea-level history during birth of a foreland basin – The Famennian-Visean of "Velbert 4", westernmost Rhenish Massif, Germany Hans-Georg Herbig, Daria Lobova & Varinnia Seekamp
14:15	Early Cisuralian palynoflora from Apillapampa, Bolivia: biostratigraphic significance M. M. Di Pasquo, G. W. Grader, R. Iannuzzi, P. Isaacson, P. A. Souza, E. Díaz-Martínez
14:30	Presence of the callipterids in the Permian of northeastern Brazil: stratigraphic and phytogeographic implications R. Iannuzzi, M. C. Langer
14:45	Progress of the Permian Timescale Shen Shuzhong, Charles M. Henderson
15:00	On the way to correlate Paleozoic French strata with the International Stratigraphic Chart Elise Nardin, Muriel Vidal, Vincent Perrier, Bertrand Lefebvre, Markus Aretz, Daniel Vizcaïno, J. Javier Álvaro

15:15	The Austrian Stratigraphic Chart 2004 (sedimentary successions) and its lithostratigraphic units – the Paleozoic era(them) Werner E. Piller, Bernhard Hubmann
15:30	3 rd Poster Session - Poster Hall (Themes: 4, 7, 8a, 15, 17, 18, 19, 20)
16:00 - 16:30	Coffee Break
Theme 7 - Planetary Stratigraphy (Mars)	
16:30	Global distribution of stratified deposits on Mars Kathryn M. Stack, John P. Grotzinger, Jennifer L. Griffes, Ryan N. Farley
16:45	Equatorial Layered Deposits in Arabia Terra, Mars: stratigraphy and process variability Monica Pondrelli, Angelo Pio Rossi, Laetitia Le Deit, Mihaela Glamoclija, Barbara Cavalazzi, Frank Fueten, Stephan van Gasselt, Ernst Hauber, Fulvio Franchi
17:00	Fluvio-Lacustrine Sedimentation and Tectonic Influence, Lunae Planum (Mars) Francesco Salese, Gian Gabriele Ori, Monica Pondrelli, Goro Komatsu
17:15	Stratigraphic analysis of the depositional sequence within Danielson Crater (Mars) Alessio Murana, Thomas Kneissl
17:30	An attempt to apply sequence stratigraphic concepts to Mars: the Eberswalde crater Monica Pondrelli, Angelo Pio Rossi, Loredana Pompilio, Lucia Marinangeli
17:45 - 18:30	CLOSING CEREMONY (Room A2)

ROOM 1 - FRIDAY 5 JULY	
Theme 19 - Microfossils in Stratigraphy	
09:00	Frasnian Ostracods of the East European Platform, Russia - biostratigraphic implications Irina Evdokimova
09:15	Improving palaeoecological understanding of the Cenomanian units in Lisboa-Sintra region: the S. João das Lampas section M. Cristina Cabral, Ana C. Azerêdo, Elba A. Boavida
09:30	Paleoclimatic implications of Permian fusulinids and carbonates from Baoshan Block, SW China Hao Huang, Jin Xiaochi
09:45	Refurbishing the Urgonian biostratigraphy: A key section at L'Estellon, Drôme, France Bruno Granier, Robert Busnardo, Bernard Clavel, Michel Moullade, Jean Charollais, Guy Tronchetti, Pierre Desjacques
10:00	Planktonic foraminiferal biozonation of the Oligocene in the North Adriatic Sea Morana Hernitz Kucenjak, Vlasta Premec Fucek
10:15	Advances on Calcareous Nannofossil biostratigraphy based on Toarcian-Aalenian sections from the Lusitanian Basin (Portugal) Jorge Ferreira, Emanuela Mattioli, Bernard Pittet, Mário Cachão
10:30	Refining the biostratigraphy and biochronology of the Belverde borehole (Setúbal Peninsula, Portugal): calcareous nannofossil data Paulo Legoinha, José-Abel Flores
10:45	New palynological and floral information from the Potí Formation (late Visean), Riacho do Roncador creek, Parnaíba Basin, northern Brazil Roberto Iannuzzi, Mercedes di Pasquo
11:00 - 11:30	Coffee break
11:30 - 12:30	3 rd Plenary Session - Vitor Abreu " Accomodation sucession method: impact in petroleum exploration" (Room A2)
12:30 - 14:00	Lunch break
14:00	Biostratigraphy as a basic tools to validate high resolution OSL, CRN and sequence stratigraphic data Alessandra Negri, Anna Sabbatini, Rossella Capozzi, Kellen Gunderson, Vincenzo Picotti, Alesio Ponza, Frank J. Pazzaglia

14:15	The Mississippian-Pennsylvanian boundary in the Lviv-Volyn coal Basin (Western Ukraine) on the basis of palynological data Evgeniia Gonyk, Antonina Ivanina
14:30	Early Cretaceous pollen-spore and mesofossil associations of the Bombarral formation (Lusitanian Basin, western Portugal) Mário Miguel Mendes, Jorge Dinis, João Pais
14:45	Correlation of Upper Cretaceous sequences of Eastern Europe based on radiolarians V. S. Vishnevskaya
15:00	Paleogene radiolarian-bearing strata from Tibet and its geological implications Kexin Zhang, Yinping Liang, Weihong He
15:30	3 rd Poster Session - Poster Hall (Themes: 4, 7, 8a, 15, 17, 18, 19, 20)
16:00 - 16:30	Coffee Break
16:30	Cenozoic marine diatom zonations: peculiarities of biostratigraphic schemes constructions and application Andrey Gladenkov
16:45	New integrated high-resolution dinoflagellate cyst, litho- and chemo- stratigraphy from the Paris and Dieppe-Hampshire Basins "Sparnacian" Alina I. Iakovleva, Florence Quesnel, Christian Dupuis, Jean-Yves Storme, Noémie Breillat, Roberto Magioncalda, Paola Iacumin, Christine Fléhoc, Emile Roche, Thierry Smith, Jean-Marc Baele, Johan Yans, Jan De Coninck
17:00	Calcareous microfossils as tracers of major palaeoceanographic perturbations: the case of the onset of the Messinian salinity crisis in the Tertiary Piedmont Basin (NW Italy) Francesca Lozar, Donata Violanti, Elisa Bernardi, Francesco Dela Pierre, Marcello Natalicchio
17:15	Vertebrate microfossils as tools in stratigraphy: example of the Lower Devonian Andrée Land Group, Spitsbergen Zivile Zigaite, Henning Blom, Alberto Perez-Huerta, Daniel Goujet
17:45 - 18:30	CLOSING CEREMONY (Room A2)

ROOM 2 - FRIDAY 5 JULY	
Theme 17 - Fossil Vertebrates in Stratigraphy	
09:15	Stratigraphic distribution of large flightless birds in the Paleogene of Europe Eric Buffetaut, Delphine Angst
09:30	Neogene terrestrial chronostratigraphic sequence of China Tao Deng, Sukuan Hou
Theme 20 - Terrestrial Mesozoic Stratigraphy	
09:45	Triassic macrostratigraphy of the western United States David Lovelace
10:00	Palynological successions of the Late Jurassic and Early Cretaceous in the Qinghai-Xizang plateau, China Li Jianguo
10:15	The karstic habitat of spelaegriphacean from Las Hoyas fossil site (Upper Barremian, Serranía de Cuenca, Spain) Marian Fregenal-Martínez, M. Belén Muñoz-García, Angela D. Buscalioni, Javier Elez, Raúl de la Horra
10:30	Dating of the uppermost part of the Cabullona Group in Esqueda (Sonora, Mexico) Uxue Villanueva-Amadoz, Carlos M. González-León, Luigi Solari, Laura Calvillo-Canadell, Sergio R. Cevallos Ferriz

11:00 - 11:30	Coffee break
11:30 - 12:30	3 rd Plenary Session - Vitor Abreu "Accommodation succession method: impact in petroleum exploration" (Room A2)
12:30 - 14:00	Lunch break
Theme 4 - GSSP and Stratotypes	
14:00	High-resolution Carbon-isotope stratigraphy of the Cambrian–Ordovician GSSP: an enhanced international correlation tool Karem Azmy, Gabriella Bagnoli, Svend Stouge, Uwe Brand
14:15	Redefining the Devonian–Carboniferous boundary: overview on problems and possible solutions Markus Aretz
14:30	Lower Moscovian conodonts and fusulinids: the position of the lower boundary of the Moscovian Stage (Pennsylvanian) Natalia V. Goreva, Tatiana N. Isakova
14:45	On the proposed Oxfordian–Kimmeridgian (Upper Jurassic) boundary stratotype and its correlation potential Andrzej Wierzbowski, Bronisław A. Matyja
15:00	Russian GSSP candidate sections for the Jurassic System Mikhail Rogov, Victor Zakharov
15:30	3 rd Poster Session - Poster Hall (Themes: 4, 7, 8a, 15, 17, 18, 19, 20)
16:00 - 16:30	Coffee Break
16:30	Integrated biostratigraphy of calcareous nannofossils and ammonoids: implication for the definition of the stratotype of the Berriasian/Valanginian boundary (139.4 Ma ago) Samer Kenjo, Emanuela Mattioli, Stéphane Reboulet, Didier Bert, Kayed Ma'Louleh
16:45	The advantages of giving the Bedoulian, lower substage of the Aptian, the rank of a full stage Michel Moullade, Bruno Granier, Guy Tronchetti
17:00	Correlation between the type Chattian in NW Europe and the Rupelian/Chattian candidate GSSP in Italy K. K. Śliwiska, C. Heilmann-Clausen, E. Thomsen
17:45 - 18:30	CLOSING CEREMONY (Room A2)

ROOM 3 - FRIDAY 5 JULY	
Theme 21 - Volcanic Stratigraphy	
09:00	Original detection methods for tephra layers and cryptotephra Gwérolé Jouannic, Anne-Véronique Walter-Simonnet, Gilles Bossuet, Anne-Lise Develle, Eric Delabrousse, Christophe Loup
09:15	Mineral phases as a tool for robust correlation of proximal-distal tephra in the Central Mediterranean Area Raffaele Giordano, Roberto Sulpizio, Alfredo Caggianelli
09:30	The large explosive activity of Mount Etna as written in distal tephrostratigraphy Roberto Sulpizio, Gianluca Groppelli, Donatella Insinga, Stefano Branca, Mauro Coltelli, Paola Del Carlo, Stella Tamburrino, Giovanni Zanchetta
09:45	A sequence stratigraphic study in a complex volcanic area (Campania, Italy) Alfonsa Milia, Maurizio M. Torrente
10:00	Regional implications of new U-Pb zircon ages from rhyolitic ignimbritic deposits and andesitic flows of Permo-Carboniferous basins in Southern Pyrenees M. F. Pereira, A. Castro, C. Fernández, M. Chichorro, J. Martí

10:15	The use of stratigraphic data for the mitigation of hazard at volcanoes: the example of Somma-Vesuvius (Italy) Roberto Sulpizio
10:30	Stratigraphic methodology for the new geological map of Etna volcano Stefano Branca, Mauro Coltelli, Gianluca Gropelli
10:45	Stratigraphy of the Coranzulí Caldera R. Seggiaro, S. Guzmán, J. Martí, C. Montero, E. López
11:00 - 11:30	Coffee break
11:30 - 12:30	3 rd Plenary Session - Vitor Abreu "Accommodation succession method: impact in petroleum exploration" (Room A2)
12:30 - 14:00	Lunch break
14:00	Geological setting, volcanic stratigraphy, and flank failure of the El Estribo volcano, Pátzcuaro, Michoacán, Mexico A. Pola, J. L. Macías, S. Osorio-Ocampo, V. H. Garduño-Monroy, S. Cardona-Melchor, J. Martínez-Martínez
14:15	Geology and stratigraphy of the Cerro Prieto Volcanic Complex, Baja California Norte, México Laura García Sánchez, José Luis Macías, José Luis Arce, Víctor Hugo Garduño-Monroy, Ricardo Saucedo, Paul Layer, Víctor Santiago Rocha, Guillermo Cisneros
14:30	Volcano-stratigraphy of La Garrotxa monogenetic volcanic field (NE of Spain) Xavier Bolós, Llorenç Planagomà, Joan Martí
14:45	Multidisciplinary approach to the Holocene flank eruptions in Tenerife (Canarias) Gianluca Gropelli, Maria José Blanco, Daniele Giordano, Joan Martí Molist, Stavros Meletlidis, Claudia Principe
15:00	What does "volcanoclastic" mean in a distal sedimentary succession? Andrea di Capua, Gianluca Gropelli
15:15	Another look to the mechanisms of formation of ash aggregates in pyroclastic deposits Teresa Scolamacchia
15:30	3 rd Poster Session - Poster Hall (Themes: 4, 7, 8a, 15, 17, 18, 19, 20)
16:00 - 16:30	Coffee Break
16:30	Meeting International Subcommittee on Quaternary Stratigraphy (ISQS)
17:45 - 18:30	CLOSING CEREMONY (Room A2)

POSTER HALL - FRIDAY 5 JULY		
Board n.º	Theme	3rd POSTER SESSION (Themes 4, 7, 8a, 15, 17, 18, 19, 20)
#01	4	Stratigraphic distribution of the brachiopods in the proposed Toarcian GSSP at Peniche (Portugal) María J. Comas-Rengifo, Luís V. Duarte, Francisco F. Félix, Fernando García Joral, Antonio Goy, Rogério B. Rocha
#02		Thuoux and Saint-Pierre d'Argençon sections (Subalpine Basin, SE France): case studies of ammonite biostratigraphy for the potential candidate Callovian-Oxfordian GSSP Dominique Fortwengler, Didier Marchand, Jacques Thierry, Pierre Pellenard
#03		Integrated stratigraphy of the potential candidate Oxfordian GSSP at Thuoux and Saint-Pierre d'Argençon (France) Pierre Pellenard, Anna-Chiara Bartolini, Slah Boulila, Pierre-Yves Collin, Dominique Fortwengler, Bruno Galbrun, Silvia Gardin, Vincent Huault, Emilia Huret, Didier Marchand, Jacques Thierry
#04		Calcareous nannofossil biochronology around the Callovian Oxfordian boundary of three potential GSSP candidate sections: Thuoux, Savournon and Saint-Pierre d'Argençon (SE France) Silvia Gardin
#05	7	Liquefaction features: a comparison between the Emilia epicentral area (Italy) and the Cerberus Fossae region (Mars) Francesca Cannarsa, Gian Gabriele Ori, Vittorio Scisciani
#06		"Unconformity-Bounded" Stratigraphic Units in the South Polar Layered Deposits (Promethei Lingula, Mars) Luca Guallini, Angelo Pio Rossi, Sebastian Emanuel Lauro, Lucia Marinangeli, Elena Pettinelli, Roberto Seu
#07	8a	Stratigraphy and Carboniferous terrigenous sedimentation settings on the eastern flank of the Pre-Caspian depression L. Akhmetshina, A. Kan
#08		Precambrian and Cambrian regional stratigraphy of Mongolia D. Dorjnamjaa, B. Enkhbaatar, G. Altanshagai
#09	15	Stratigraphy and sedimentology of the Triassic's lower series reservoirs in South Hassi R'mel. Saharan platform – Algeria Rabah Chaouchi, Salima Talamali
#10	17	New Early Middle Pleistocene locality of small mammals (Lower Dniester) and its position in early Middle Pleistocene sequence Anastasia K. Markova
#11		Triassic timescale based on Tetrapod biostratigraphy and biochronology Spencer G. Lucas, Lawrence H. Tanner
#12	18	Nautiloids from the Toarcian of the Iberian Peninsula, Spain and Portugal Fernando Barroso-Barcenilla, María José Comas-Rengifo, Luís Vítor Duarte, Antonio Goy, Gemma Martínez
#13	19	The question of the Turonian-Coniacian boundary in Western Georgia (on the basis of planktonic foraminifera) Khatuna Mikadze
#14		Upper Devonian and Lower Carboniferous Foraminiferal Facies Associations from Melekesskian Depression Elena Zaytseva
#15		Miocene dinoflagellate cyst assemblages - preliminary correlation between the Lower Tagus and Algarve Basins (Portugal) Lúgia Castro, Marisa Borges, Zélia Pereira, Paulo Fernandes, João Pais
#16		Upper Pliensbachian-Middle Toarcian foraminiferal assemblages in the Camino Section (Basque-Cantabrian Basin, Spain) Concha Herrero, Roselis W. Salazar Ramírez
#17		New biostratigraphical data of the late Valanginian-Hauterivian in the Mateur area (Lansarine chain, Northeastern Tunisia) based on foraminifers and ammonites S. Melliti, N. Ben Haj Ali, R. S. Jeddi, L. Memmi, F. Zargouni, E. Saidi
#18		Radiolarian and foraminiferal Upper Cretaceous zonal subdivisions of the Crimean-Caucasian region V. S. Vishnevskaya, L. F. Kopaevich

Board n.º	Theme	3rd POSTER SESSION (Themes 4, 7, 8a, 15, 17, 18, 19, 20)
#19	19	New sedimentological and palynology data of the Permian and Triassic of the Paris Basin, France José B. Diez, Sylvie Bourquin, Laurent Beccaletto, Eric Lasseur
#20		Palynostratigraphical data of the Buntsandstein and Muschelkalk facies from the Iberian Ranges (Spain) José B. Diez, Alfredo Arche, Jean Broutin, Sylvie Bourquin, Raul de la Horra, Javier Ferrer, Soledad García-Gil, José López-Gómez
#21	20	Albian–Paleocene Flora of the North Pacific: Phyt stratigraphy and Palaeofloristics Alexei B. Herman
#22		Palaeogeographical significance in the Western Tethys of the Early Triassic fluvial-aeolian interaction in the Catalan Ranges, NE Spain Belén Galán-Abellán, Raúl de la Horra, José López-Gómez, José F. Barrenechea, Mariano Marzo, Alfredo Arche, Violeta Borrue
#23		Paleoenvironmental interpretation of paleosols and palustrine carbonates of the Lower Cretaceous earliest terrestrial ecosystems in the Serranía de Cuenca, Iberian Ranges, Spain Raúl de la Horra, M. Belén Muñoz-García, Marian Fregenal-Martínez, Javier Elez,
