

CV (resumed)

Name: Paulo Jorge Sintra Almeida Partidário

Date of birth: 6th March 1958

Nationality: Portuguese

Main field of work : Strategic planning of sustainable innovation

Other: Eco-Efficiency and sustainable production-consumption chains, Constructive technology assessment, Integrated industrial pollution prevention and control, Environmental management in industrial companies.

1. University Degrees

2002 – PhD in Strategic Planning of Sustainable Innovation, TU Delft (NL)

1995 - M.Sc. in Science and Technology Management (Faculty of Economy, Technical University of Lisboa)

1993 - Post Graduation in Science and Technology Management (Faculty of Economy, Technical University of Lisboa)

1982 - Graduation in Chemical Engineering (IST, Technical University of Lisboa)

2. Professional positions

Since 2002 (Abril) – Head of Research Unit on Prevention and Recycling Technologies at (DMTP)/ INETI.

1999 to 2002 - Senior Researcher within the Materials and Production Technologies Institute (DMTP)/ INETI.

1993 to 1999- Head of Department on Environmental Technologies (DTA), in the Environmental Technologies Institute (ITA)/ INETI.

1992 to 1999- Senior Researcher in the Environmental Technologies Institute (ITA)/ INETI.

1984 to 1992 - Research Assistant in the Industrial Technologies Institute (ITI)/ LNETI.

1983 to 1985 - Lecturer in the Chemical Engineering Department, ISEL, Technical University of Lisboa.

CV (resumed)

3. S&T Activities

3.1 Thesis

Partidário, P.J. (2002). "What-If": From path dependency to path creation in a coatings chain; A methodology for strategies towards sustainable innovation, PhD Thesis Delft University of Technology, Druk Tan Heck, Delft, The Netherlands (ISBN 90-5155-015-4).

M.Sc. Thesis: "Innovation and Technology Development on the Portuguese Industry of Environmental Equipment" *in portuguese* (Thesis supervisor: Prof. J. Caraça, Faculty of Economy-Technical University of Lisboa), (1995).

Research Thesis: "Volatile organic matter removal in a Three-Phase Biological Packed Bubble Column Reactor" *in portuguese*, (Thesis supervisor: Prof. M.J.T. Carrondo, New University of Lisboa, TUL), (1992).

3.2 Technological R & D

Contribution to National Project Ref^a OMS/PNUD POR/RGE 001 "Atmospheric pollution abattment in industrial and urbain zones" (1981/82).

"Contribution to a reference laboratory project for gaseous and particulate atmospheric pollutants" (1983)

"Volatile organic matter removal in a three-phase biological packed bubble column reactor" (1985/89).

Contribution to EU/ CECA Project Ref. 7261/03/504/15: "Experimental assessment of soil remediation technics in coke oven sites" (1993/5).

"Portuguese Industry of Environmental Equipments - Present situation and future oportunities", (Survey under contract for the portuguese institution: AIMMS-GAPE)(1993-94).

"Pollution minimization in portuguese iron foundry industry", under contract to General Direction of Industry - Portuguese Ministry of Industry (1994/5).

CV (resumed)

"Process and metabolic research of a tri-phase system to biologically degrade odours", under contract to JNICT (PT) Ref. PEAM/C/TAI/282/93 (1994/6).

"ECOMOSART - Ecotoxicological Monitoring of Industrially Polluted Soils and Assessment of the Respective Remediation Techniques", under contract to EC ENV4 - CT96 - 0343, (1997-9)

"Technological Demonstration Project on Cleaner Production and Integrated Control on a Waste Water Treatment Plant", under contract to Matutano SA (PepsiCo Foods Int.), and financed by Pedip II/ Med. 4.6 (1996-7).

"Technological Demonstration Project on Cleaner Production", under contract to Hovione SA, and financed by Pedip II/ Med. 4.6 (1996-7).

-Co-Chairman do FACTORY Brokerage Event, Workshop "Environmentally friendly products and production processes including energy and chemical processes/ EUREKA, Berlin 16-17 Setembro (1996).

- FACTORY/EUREKA network Portuguese delegate (1996-97).
- Contracted research for the European Science & Technology Observatory (ESTO) (1997-98):
 - "Factor 4 Technologies: European State of the Art", performed together with TNO-STB (coordinator), ADEME (F), VDI and ITAS (G), SPRU and CEST (UK);
 - "The Innovation Potential in Selected Recycling Sectors", including the coordination of the working group, including TNO-STB (NL), CEST (UK), VITO (B) and ADEME (F).
- Deputy Platform Manager e Technology Broker no Projecto ETTN – European Technology Transfer Network (O.T. 98/S/134 OJ 15/07/1998 - ETTN), (inicio:1 March'99; conclusão: 23 June 2000).
- R&D within EU project "HiCS – Highly Customerised Solutions. Solution oriented, design, production and delivery systems" (EU/5FP "Growth", Contract Nr. G1RD-CT-2001-00487); time frame: 36 months, started in April 2001.
- Project "IMATECH". POCTI Med. 2.3/ Prog. Eureka. Partners: Iber-Ollef, TRW (Alemanha), TRW (Espanha), INETI, Centinfe, UMinho/ PIEP. Período de Execução: 2003-2004.

CV (resumed)

- Rapporteur of a Workshop on “Drivers & Barriers” within the Regional Stakeholder Workshop “Environment as an economic oportunity” in the preparation of the EU Informal Environmental Council, Milan 17th May 2004.
- Project PreResi – Prevenção de Resíduos Industriais (<http://preresi.ineti.pt>). POE-Prime Prog/ Public-Private Partnerships (2005-2007).
- Project INATEC – Inovação, Agilidade e Tecnologia nos Moldes, POE-Prime (2006-2008).
- Network Cemicro. POSC (2006-2008)
- Green-IT (www.Green-IT.eu). EU-SAVE (2006-2008)

3.3 Published Work

Partidário, P.J.(1981), Sulphur dioxide and sulphuric acid determination in portuguese waste gas effluents by US.EPA Method 8 , 4º Enc.Nac.Quimica , PI-6 (in portuguese) .

Partidário, P.J., M.T.Chambino & L.M.Coutinho (1984), Metrology of gaseous emissions in fixed sources, Física '84 - 4^a Conferência Nacional de Física : 611 (in portuguese) .

Partidário, P.J. (1984), Simulated emission of monodispersed Fe₂O₃ aerosols , 7º Enc.Nac.Quimica, PB47 (in portuguese).
