

Department of Electrotechnical Engineering (DEE) - Robotics and Integrated Manufacturing (RIM) group
with the support of the Faculdade das Ciências e Tecnologia da Universidade Nova de Lisboa (FCT-UNL)
presents

eINTERFACE'13 the 9th Intl. Summer Workshop on Multimodal Interfaces Lisbon, Portugal, July 15th - August 9th, 2013

Call for Participation

After the previous workshops which had an impressive success record and had proven the viability and usefulness of this hands-on workshop, the 9th edition will take place in Lisbon, Portugal. eINTERFACE workshops aim at establishing a tradition of collaborative, localized research and development work by gathering, in a single place, a team of senior project leaders in multimodal interfaces, researchers, and (undergraduate) students, to work on a pre-specified list of challenges, for 4 weeks. Participants are organized in teams, attached to specific projects, working on free software. Each week will typically consist of working sessions by the teams on their respective projects plus a tutorial given by an invited senior researcher and a presentation of the results achieved by each project group. The last week will be devoted to writing an article on the results obtained, which are expected to be published by Springer, IFIP AICT series (indexed in Web of Science).

Senior researchers, PhD, MS, or undergraduate students are now invited to submit an application for participation at eINTERFACE'13. All those interested in participating at the workshop should send their application by emailing the organizing committee at yr@uninova.pt. The content of the application can be found on the website of the summer school (<http://eventos.fct.unl.pt/enterface13>). The deadline is fixed at the 1st of April. Applicants can choose up to three projects ordered by preference (see the website for the description of the projects and available positions in each of them). Selection of the applicants will be carried out by the project leaders.

Projects (<http://eventos.fct.unl.pt/enterface13/pages/projects-teams>):

- p1 - A NOVEL TOOL TO IMPROVE VISION IN ADULTS WITH AMBLYOPIA.
- p2 - NETWORKED EYE-TRACKERS IN SHARED MULTIMODAL COLLABORATION.
- p3 - BODY-CENTRIC INTERACTIVE PLAY.
- p4 - TOUCHING VIRTUAL AGENTS - EMBODIMENT AND MIND.
- p5 - MULTIPARTY MULTIMODAL SOCIAL DIALOGUE WITH A HUMAN-LIKE TUTORING AGENT.
- p6 - DESIGN A PERSUASIVE iPad GAME FOR CHILDREN WITH DIABETES TYPE 1.
- p7 - LAUGH WHEN YOU'RE WINNING.
- p8 - TOWARDS THE SKETCHING OF PERFORMATIVE CONTROL WITH DATA.
- p9 - KINTEREST TV.
- p10 - KINECT-SIGN.
- p11 - BODY OWNERSHIP OF VIRTUAL AVATARS: AN AFFORDANCE APPROACH OF TELEPRESENCE.
- p12 - DEVELOPMENT OF AN AMBIENT ASSISTED LIVING (AAL) ECOSYSTEM.

Important dates:

- * **May 26th, 2013** - **Closing of the Call for Participation**
- * **June 10th, 2013** - Publication of the teams
- * **July 15th -> August 9th, 2013** - eINTERFACE'13 Workshop
