ABSTRACT

This is an example of a WCSB proceedings abstract, as you should submit it. Use a one column format, with the title and author information centered across both columns on the first page. The WCSB proceedings will be printed from the submitted file prepared by you. No changes will be possible after submission of the final pdf of your abstract. Please adhere to the style guidelines below to allow us to maintain uniformity in the final printed copy of the proceedings. The paper title should begin 35 mm from the top edge of the first page, centered, completely capitalized, and in Times (Times New Roman) font, boldface type, in 12-point size. The author's name(s) and affiliation(s) appear below the title in 12-point capital and lower case letters. Author's name(s) should be typeset in italics. Include a mailing address here and your email address as well. All text should be in one column, Times New Roman or equivalent font, and the main text should have a font-size of 10 points. Submit the final camera-ready copy of the abstract as pdf.
